SOCCER CAMP Spain

On Sports Experience

On Sports Experience is a top-level sports project, in which male and female players, aged between 6 and 21, enjoy football while learning and playing with the best professionals.

Our On Sports Experience Camp programme is designed in a way which provides the ideal atmosphere for the training of sportsmen and sports women from all over the world.

The program offers an individualized development that guarantees the objectives and goals creating a perfect adaptation in each of the programmes.

One of the main objectives is to make participants more motivated for practising football after training with professionals from first level clubs.

We will promote coexistence, cooperation and interaction between participants by practicing football and promoting values such as friendship, self-esteem, companionship and fair play.

We will develop learning through a global training system via the game and resolve technical-tactical situations by stressing the importance of making decisions in real play situations, thus contributing to the maturation and personal autonomy.

Football is a fundamental tool for the incorporation of the principles of coexistence and teamwork for our participants, which will serve them in the future for their social and cultural integration.

During the week of the Camps, our students will receive our service and training. The company has its own personalised service, within an incomparable setting and first class facilities.
